About Me

Frontend Developer skilled in HTML, CSS, JavaScript, and React.js. Passionate about creating responsive, user-friendly web applications. Continuously learning modern frontend technologies. Dedicated to writing clean code and delivering exceptional user experiences.

Skills

- Responsive Web Design
- Git & GitHub
- React.js
- JavaScript
- HTML5
- CSS3
- Leadership

Education

- Matriculation in Science**
Unique School 2019 - 2021
Completed secondary education with a focus on Science subjects including Physics, Chemistry, and Biology. Developed strong analytical thinking, problem-solving abilities, and discipline. This scientific foundation enhances my logical approach to coding and frontend development challenges.
- FSC in Pre-Medical**
Aspire College 2022 - 2024
Completed higher secondary education in Pre-Medical, specializing in Biology, Chemistry, and Physics. Cultivated critical thinking, analytical reasoning, and meticulous attention to detail. This scientific discipline fosters a structured problem-solving approach, which seamlessly translates to writing clean, logical, and efficient code.
- BS in Computer Science (Undergraduate)**
Superior University 2025 - 2029
Currently pursuing a Bachelor's degree in Computer Science, building a strong foundation in programming, algorithms, and software development. Actively learning modern web technologies including React.js, JavaScript, and responsive design. Committed to applying academic knowledge to real-world frontend development projects.

Experience

- Self-Directed Frontend Development** 2026 - Present
Independently learning and building web applications using modern frontend technologies. Completed 4 full projects demonstrating proficiency in React.js, JavaScript, and responsive design. Continuously improving coding skills through hands-on practice.
